

TechSoup Overview

The Need

There is tremendous opportunity and unmet need in the global NGO sector.

More than 10 million NGOs employ almost 50 million people and contribute up to 5% of total GDP.*

Our Action

Organizations with few resources are often the ones that help the most vulnerable people and address the most critical problems.

To empower these organizations, we help them:

- Get the latest tools and resources
- Access increased funds and support
- Connect with experts and volunteers
- Network with and learn from peers

Our Story

- We equip changemakers with the transformative technology solutions they need to improve lives globally and locally.

- We are a global network of 64 partner NGOs that provide the best technology resources to over 690,000 organizations in 162 countries.

Our Work

TechSoup.org

Provides NGOs with technology, products, services, and education at low or no cost.

NGOsource

Simplifies international giving for grantmakers and grantees.

Validation Services

Connects philanthropy programs with validated NGOs around the world.

GuideStar International

Provides an information system for NGO reporting and transparency.

Caravan Studios

Creates apps that help communities solve critical problems.

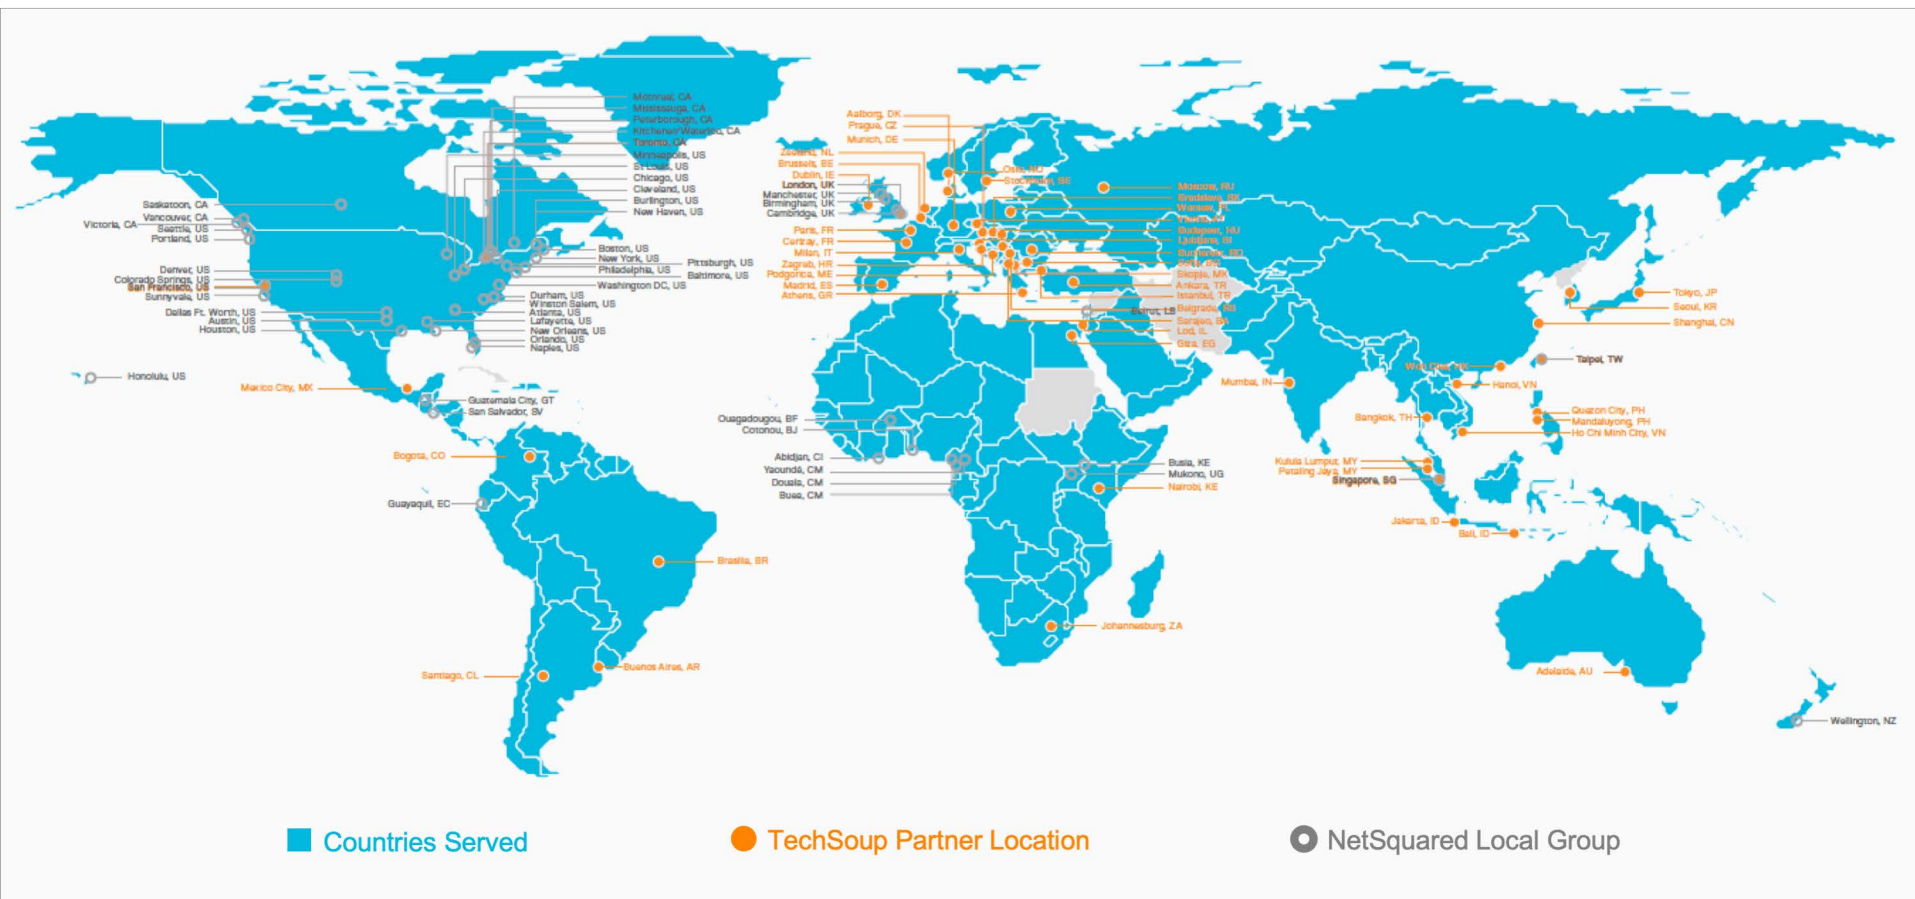

NetSquared

Builds local communities for people working in social good technology.

Our Reach

Our mission is to build a dynamic bridge that enables design and implementation of technology solutions for a more equitable planet.

Our Impact

- Together, we build a stronger, more resilient civil society.

79%

of NGOs have improved organizational efficiency with TechSoup Global's resource offering*

\$5.5B

in technology products and grants employed by NGOs for the greater good

35

languages used to provide education and support

100+

corporate and foundation partners connected with the causes and communities they care about

6.1M

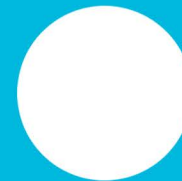

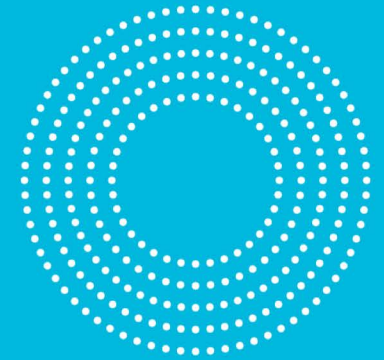

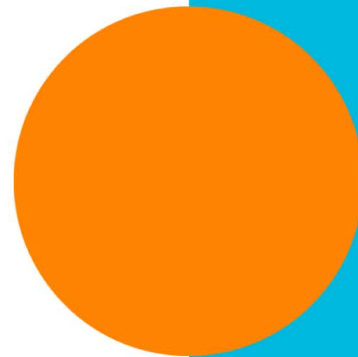

annual visits to our websites

600,000

newsletter subscribers empowered with actionable knowledge

- Charles S. Mott Foundation
- Packard Foundation
- Rockefeller Brothers Fund
- Rockefeller Foundation*

Foundations marked with an asterisk give grants and are also NGOsource members. NGOsource now has 100+ grantmaker members using the service. Of the 10 largest international grantmakers, eight are NGOsource members.

Our Product Donation Program

- Donated technology, training, and community forum resources for NGOs save costs, magnify impact, and extend reach.

The screenshot shows the TechSoup website interface. At the top left is the TechSoup logo. To its right is a location dropdown menu set to "United States". Further right are "Log In" and "Join" buttons. Below the header is a navigation bar with links for "Get Products and Services", "Community", "Resources", and "Support", along with a search bar. The main content area features a large banner for "Office 2016" with a photo of two men in a meeting. The text reads: "The New Office 2016 Is Built for Teamwork". Below this, it states: "Office 2016 from Microsoft includes new tools designed with communication and collaboration in mind. Co-author documents simultaneously with others in your organization and meet online from anywhere with Skype for Business. Office 2016 takes the work out of working together." A "Get Office" button is positioned at the bottom right of the banner. To the right of the banner is a call-to-action box titled "Not a TechSoup member? Join today to access donations and discounts for your nonprofit or library." It contains a three-step process: 1. Sign Up, 2. Register or Associate to an Organization, and 3. Request Products and Services. A large orange "Join Now" button is at the bottom of this box. Below the banner, there are three smaller buttons: "Office 2016", "QuickBooks Online", and "Webinar: Office 2016". At the bottom right of the page, there is a link: "Already a member? Log in!".

Power up your
social impact.
